

Application No. 09/488,337
37 C.F.R. 1.131 Declaration

Exhibit C

Offline & Online Content Example (MGM's Ronin)

The screenshot displays the DVD menu for 'Ronin'. The interface is dark with white text and icons. At the top, there's a navigation bar with icons for 'Main Menu', 'Scene Selection', 'Audio', 'Subtitles', 'Special Features', and 'Exit'. Below this, the main menu is divided into several sections. On the left, a large image shows a character in a dark, hooded outfit. To the right of this image, the text 'DVD-Video (controlled over Internet to Access "hidden" scenes)' is visible. Further right, there are three smaller images: a character's face, a character in a dynamic pose, and a character in a dynamic pose. Below these images, the text 'Story boards downloaded over web, sync'd with commentary' is visible. At the bottom right, there's a section for 'Downloaded director's commentary' with a small image of a character. The bottom of the screen shows a status bar with the text 'Apple: started'.
